

HEALTH SERVICES ARE NOT AVAILABLE DURING SUMMER SCHOOL FOR STUDENTS IN GRADES 9-12

No school health office services are available during Summer School for students in grades 9-12. Summer School staff has no access to school health records or health office supplies. Parents/guardians are therefore responsible for notifying the On-site Coordinator of any special needs or medical conditions that impact their child's health. Parents/guardians are encouraged to administer their child's medication at home. If ANY medication (prescription or over-the-counter) MUST be given while a student is attending Summer School, parents/guardians must assume full responsibility for giving the medication.

Illness

Students in grades 9-12 are expected to be healthy enough to participate in all activities. Parent/guardian will be contacted if students show any sign of illness and will be expected to pick up the child within one hour of being contacted. If this is not possible, parents/guardians are expected to arrange for an authorized person to pick up the child. If staff is unable to reach the parents/guardians, persons listed on the emergency form will be contacted. Children with any communicable disease may not return until 24 hours after medication begins or their return is approved by a physician.

Accidents

Staff will administer first aid for minor injuries and notify the parents/guardians at pick up. For injuries requiring medical attention, staff will contact the parents/guardians immediately and administer first aid until they arrive. If immediate medical attention is necessary, staff will call 911 and then notify parents/guardians, who will be responsible for all medical charges. By enrolling in Summer School 9-12, parents/guardians are giving Summer School 9-12 permission to make whatever emergency measures are necessary for the care of their child while under our supervision.
