

## School Within a School ALC Grades 9-12

The School Within a School Program exists at six high school sites. Students are supported during the school day prior to failing course work. Flexible programming is used to accommodate diverse life situations, including smaller class sizes, individual support, while fulfilling students requirements for graduation.

Curriculum will be a blend of direct instruction and project-based learning. Facilitators are full-time, licensed teachers who will help guide students on the path to recovering credits needed to graduate. Students will have the option to enroll in Diploma to Degree (D3) or Jobs for Americas Graduates programming (JAG).

### Programming available at:

Thomas Edison, Patrick Henry, Roosevelt, Washburn and Wellstone High Schools. Recently added, Southwest High School.

Students register with their counselor or site coordinator.

### **How will this program help me recover credits and graduate on time?**

Teachers at SWS will partner with site teachers to provide students with individualized instruction and assessment, so that students can focus on their specific learning and credit needs. Creative projects and other assignments will allow students to study multiple subjects, topics and skills all at the same time, earning credits in multiple areas through single, more compact lessons.

### **Will I still have to do online ALC?**

Students in SWS need to participate in extended day learning, which adds up to about 2 hours per week. Extended learning can be completed online or through other modes, and can take place in or out of the school building.

**“Before I came to SHARP I missed the whole 4<sup>th</sup> quarter of credits because I moved away. When I came back to school there a new program called SHARP. The staff are very helpful and understand our needs. I have already recovered a half a year of credits in a quarter. I love this program because the staff are here to help you with whatever you need. SHARP helps you achieve your goals for school and beyond.”**
